

FAMILY FUN AT HOME

1. Scavenge or treasure hunts is an activity that can be played either inside or outside of the house. This game calls for using your imagination and creativity. The different themes for this game are endless. Here are some of the popular ones: insects, animals, jewelry, or you could create a map to find candy treats. Discover what's around you together or on your own.

2. Most families love to eat good food, especially when it is prepared by someone else! A cook off is a great way to bring the family together for a good meal, and make meal time exciting and fun! Everyone will come together to plan the meal, create the shopping list and prepare the meal. To make things more interesting the cook off could be parent against the children depending on the age of the child. Your family could also try food from around the world or have themes for favorite foods. Youtube is a great place to search for recipes.

3. Do you want to find out fun and interesting information about your family? Then create a fun family quiz about your family members. This is a great way to bring families closer together especially if you don't live in the same house. This is a great way to get reconnected, learn new things and discover how much you are all alike. Appoint someone to ask everyone questions and enter the question along with the answer into the game. Everyone else guesses the answers.

FAMILY FUN AT HOME

4. Play freeze dance to everyone's favorite music

5. Create your own story on-line <https://www.mystorybook.com/>

6. Create a physical family tree with photos

7. Make cards, a drawing or painting for seniors and drop them off at one of your local seniors homes.

8. Do you happen to have a projector at home? If so, grab that, a white sheet, attach your computer to it and watch a movie on the big screen. If you have a yard that's big enough set it up in the backyard, or stay indoors and hangout on the floor, grab your snacks and enjoy a night out at the movies. OR now that Drive-ins are open again, pile into the car/van and have a socially distant night at the movies.

9. Computer programming online with kids: Drawing & Animation - Learn how to use the JavaScript language and the Processing JS library to create fun drawings and animations.
